

Model United Nations Team University of Zurich

Sponsoring Brochure 2022-2023

What is MUN?

MUN, short for Model United Nations, are debating-associations found at almost every western University. Its core activity is the simulation of United Nations debating, voting and decision-making procedures. This means that our Members take on the mantle of diplomats and discuss issues of geopolitical importance.

The main vehicle for the discussions and debates is twofold. First, we organise weekly sessions where our members can train their rhetorical skills and improve their formal English, as well as get used to the processes of MUN. Second, we send our members in groups as delegations to MUN debating conferences. These events serve as a proving ground for what our members learn in our association and for them to interact with other MUN participants.

MUN is a place for people to expand their horizons. Be through interacting with different students from our University or other institutions or by assuming and representing differing political, social and economical views. For over 14 years the MUN Team UZH has been providing its members with all this.

What do we provide to our members?

Over the course of their sessions and conferences, our delegates pick up a variety of skills useful to a business environment and to gain a network of contacts that span the entire globe.

Eloquence

From holding a rousing thirty-second speech to gaining allies through lengthy discourse, our members' rhetoric and English skills are their most trusted companion.

Confidence

Both in our regular sessions and at the conferences we attend, our delegates speak publicly in front of dozens of pairs.

Negotiation Skills

Solving crises is all in a day's work for our association members. In formal debates and underrated discussions, they make allies and find common ground to pass a resolution that serves their interests.
